Salon owners have been extremely responsive to a new alternative financing option in the form of a Merchant Cash Advance, as it guarantees the approval of all salon owners in America in business for six months or more by Merchant Cash in Advance.

Alternative lending solutions have certainly been a necessity in 2011, with over 90% of traditional business loan applicants being denied of financing.

The new Merchant Cash Advance program guaranteeing the approval of all US salon owners has funded over 1600 salons in America in August alone, and will continue throughout this year. The program has caught the attention of the masses with its unique characteristics.

First, the Merchant Cash Advance loan amount is paid back through a percentage of the salon sales, at a 0% interest, rather than a fixed monthly payment. It also allows the salon owner to choose the length of payback, choices ranging from 8 months to 24 months. Additionally, besides having no credit requirements, the merchant cash advance is not a secured loan - so collateral is not asked for as well.

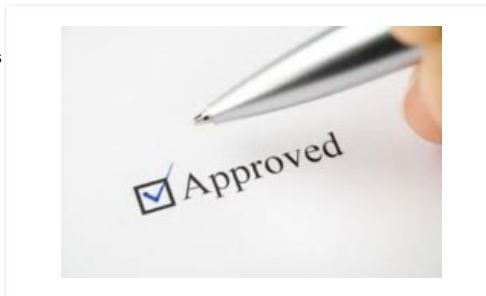

Merchant Cash in Advance's campaign for the guaranteed approval of salon owners is scheduled to fund \$25 million dollars before the end of this year.
