Merchant funding process adds new option that's easier and more cost effective with Merchantcashinadvance.com's new [Invoice Factoring Program](#) allowing businesses to get working capital cash advances within 5 days.

This new invoice factoring program announced this month, a new way for businesses both online and off, is aimed to help relieve the strain of unavailable credit and loans from banks. Merchantcashinadvance.com's new program does not require businesses to purchase any equipment or change their current merchant accounts, unlike other [merchant funding](#) programs. Their new approach provides growing companies with an alternative to small business loans with approval in as little as 24 hours. There are no hidden costs associated with applying or getting started with a new merchant funding working capital [cash advance](#).

"Our program offers a fast and effective way for business owners to get the cash needed to run their company. It is not a business loan, which means no checks to write, no fixed monthly payments, and none of the excessive documentation usually needed with a bank loan," said Mike Butler, VP of Merchantcashinadvance.com.
