The Merchant Cash Advance Unsecured Business Loan

The Merchant Cash Advance Unsecured Business Loan

A new merchant cash advance **unsecured business loan** was announced by Merchant Cash in Advance this year, that differed from every other merchant cash advance offer.

First of all, this unsecured business loan allows the business to keep its original merchant payment processor (merchant account provider). MerchantCashinAdvance.com advocates that keeping a relationship with existing merchant providers is vital to the longevity of a business.

Next, the new merchant cash advances also allow a payback period of up to 12 months. This is the longest payback period ever offered by a **merchant cash advance** provider in the history of the industry.

MerchantCashinAdvance is the fastest growing **credit card factoring** merchant cash advance provider in 2011, and it is no secret why this is.
